

INTRODUCTION TO GENERAL LIABILITY INSURANCE

Course Description

This course will provide a comprehensive introduction to the legal liabilities which give rise to claims under Employers Liability, Public Liability and Products Liability policies; a detailed analysis of the cover provided; and an examination of a number of the specific risk factors involved in these classes.

Target Audience

The course is suitable for both underwriting and broker staff, whether placing or claims. The course assumes no prior knowledge of Liability business.

Course Objectives

On completion of the course delegates will be able to:

- Provide a clear explanation of how legal liability arises
- Understand the extent of cover provided under Employers Liability and Public and Products Liability policies
- Understand some of the issues which are involved in assessing liability risks
- Understand the basic issues involved in risk management

Course Format

The course will be run as an interactive presentation, discussion, and a number of case studies.
