

INTERMEDIATE LIABILITY INSURANCE

Course Description

This course will provide delegates with a detailed knowledge of Liability Policy wordings, including current case law relating to interpretation; detail and trends in the law relating to insured liabilities; emerging risks; how various forms of Liability covers interact; and current issues relating to claims handling.

Target Audience

This course will be of interest to anyone with a working knowledge of Liability business and who wishes to enhance that knowledge and learn of some of the latest legal developments and the impact of emerging risks.

Course Objectives

On completion of the course delegates will:

- be aware of the legal interpretation, including recent litigation, of Policy Wordings.
- understand how recent changes in UK litigation and law reform may impact liability risks
- have an understanding of the case law and trends relating to insured liability risks
- understand the coverage provided by Professional Indemnity, Directors and Officers Liability Products Guarantee, Product Recall and Product Tamper policies and how they interact
- understand the key underwriting and broking considerations for liability insurance including emerging risks
- Be familiar with the liability claims handling process and the relevant aspects of the civil procedure rules

Course Format

The course will be in the form of an interactive workshop with presentations, exercises and case studies.
