

Introduction to Marine Hull Insurance

Course Description

This course will serve to explain the fundamentals of insurances placed on Marine Hulls (ships). The course is designed as an introduction only to this large and otherwise complex subject.

Target Audience

This course will appeal to all brokers, underwriters (Lloyd's and Companies), underwriting agencies, technicians, broker support, claims staff, P and I clubs, ship managers, marine lawyers, surveyors, and property and casualty staff who need to gain an understanding of transport / marine insurances.

Course Objectives

On completion of the Course delegates will:

- Be aware of the range of vessels involved
- Understand underwriting fundamentals
- Be aware of risk management techniques
- Gain a good understanding of marine insurance as applied to hulls
- Identify various risk profiles
- Begin to understand what information an underwriter is searching for
- Have a much fuller appreciation of what is involved in Hull insurance

Course Format

The course will be presented by a lecture and case studies

Course Content

- An introduction to main aspects of Hull insurance
- Broad knowledge of the London market
- Theory and practical aspects of Hull insurance, underwriting and risk management
