

INTRODUCTION TO MARINE INSURANCE

Course Description

This course provides an introduction to marine insurance. It provides a broad knowledge of marine insurance, an outline of the cover available in the market, and how they are placed. It also considers the importance of marine insurance legislation.

Target Audience

The course is suitable for anyone who needs a broad overview of marine insurance. Suitable for both underwriting and broker staff, both placing and claims, the course assumes no prior knowledge. The course will also be of use to anyone who works in underwriting or broker back up who needs a broad knowledge of the subject.

Course Objectives

On completion of the course delegates will:

- Understand how the London marine insurance market operates
- Understand the principles of marine insurance
- Be able to explain the types of marine losses
- Have an outline of shipowners' liability and protection and indemnity insurance
- Understand in outline the main cover provided by hull insurers and cargo insurers.

The course will be run as an interactive presentation with discussion and relevant case studies and exercises.
