

## **Introduction to Liability Insurance**

### **Course Description**

The Course will provide a comprehensive introduction to the legal liabilities which give rise to claims under Employers Liability, Public Liability and Products Liability policies; a detailed analysis of the cover provided; and an examination of a number of the specific risk factors involved in these classes.

### **Target Audience**

The course is suitable for both underwriting and broker staff, whether placing or claims. The course assumes no prior knowledge of Liability business.

### **Course Objectives**

On completion of the course delegates will be able to:

- Provide a clear explanation of how legal liability arises
- Understand the extent of cover provided under Employers Liability and Public and Products Liability policies
- Understand some of the issues which are involved in assessing liability risks
- Understand the basic issues involved in risk management

### **Course Format**

The course will be run as an interactive presentation with discussion and case studies.
