

Practical Application of Technical Reinsurance Accounts (Proportional)

Course Description

The course will provide a clear understanding of the principles and practice of proportional technical reinsurance accounts and a practical insight into the workings of the key technical reinsurance accounts items.

Target Audience

Those new to reinsurance or reinsurance accounts handling and those who need a broader based view of differing reinsurance areas.

Course Objectives

On completion of the course delegates will be able to demonstrate the skills necessary to ensure accurate and professional processing and checking of proportional technical reinsurance accounts.

Course Format

Presentations and discussion on the issues. A broad range of practical exercises; and discussion on the different types of accounts and the issues that arise.

Course Content

Technical Accounts of Facultative Reinsurance

- Facultative closings
- Original Gross Rate (OGR) - Original Net Rate (ONR)

Technical Accounts of Pro-Rata Treaty

- Commission - flat and sliding scale
